Glass Open Book

Phoenicia Flat Glass Industries

Description:	Phoenicia has been producing, developing and supplying glass since the year 1934. Based in the Lower Galilee, in the fast developing industrial area of Nazareth, our factory is best situated for easy and quick deliveries to our local customers and to Haifa Port reaching more than 30 different destinations, globally. Phoenicia's' float line was built for the production of the highest quality low iron float glass, and specialty glass products. The float line runs 24/7, 365 days a year. Our own in house fabrication lines include grinding, drilling, and two laminating lines dedicated to the production of safety and security glass in commercial buildings and in homes. As the sole float glass manufacturer in Israel, a country enveloped by pioneering technology, Phoenicia offers its customers experience and knowledge for optimal solutions to any glass requirement. Phoenicia has over 270 valued employees and hundreds of satisfied customers around the world.
