BDF INDUSTRIES S.p.A.

Excellence. Your Industrial Partner in Glass.

Follow the company

Description:

Established in 1906, in the 1950s BDF Industries was the first producer of IS Machines in Europe and, over the years, it has developed its business in the Glass Division, which is currently composed of four different business units such as Melting, Forming, Automation and Energy.

Nowadays, thanks to more than a hundred years of experience, BDF Industries is the sole player in the hollow glass market able to offer turnkey plants: from the design and production of furnaces, forehearths and IS Machines to complete turnkey plants, as well as maintenance service.
As a leader in the glass engineering, renewable energy and industrial automation markets, BDF Industries is recognized as one of the four largest suppliers for engineering solutions and equipment worldwide.

BDF is also an EPC company of plants and equipment, from food & beverage to perfumery and pharmaceutical products.
Since ever, highly innovative technology, the focus on customers, customized solutions and international approach are the strengths of the company, and so now it can boast plants that are tailor-made, engineered and manufactured to clients' specifications.

THE MISSION
The company's main goal is to guarantee high performances and customer satisfaction regarding specific requests: BDF targets are industrial businesses that do not want to feel alone in their technological investments and progress.

BDF Industries wants to be a partner for its customers, realizing and constructing complete plants that combine the maximization of production capacity and the reduction of operating costs.

THE VISION
The vision of BDF is to serve customers with competitive plant, processing technology and automation in order to produce with high quality standard at lowest depreciation, production costs and offer skilled after-sales service with highly specialized engineers.
Through our technologies, we want to cooperate with glass manufacturers to achieve the best process to obtain the best product.
