Glass Open Book

Pyrotek Inc.

Description: Pyrotek's global network of manufacturing centres and technical experts work with glass container producers to determine the equipment and products that will best suit their needs and reduce their melt-to-pack ratios.

Pyrotek helps glass producers:

- Increase glass quality
- Reduce energy costs
- Improve productivity

We engineer solutions for container glass, flat glass, glass bending and tempering and specialty glass applications, with global resources and local support.
