Glass Open Book

CutPRO®

Description: CutPRO® Cut Resistant Clothing is a highly acclaimed British brand of protective clothing, specifically designed to protect workers in the flat glass and sheet metal industry.

Together with the award winning Department of Apparel of one of the UK's leading universities, we have designed a range of cut resistant garments, offering truly outstanding and dependable cut, puncture, tear and abrasion performance levels.

All garments are made from the world’s most reliable and thoroughly field tested cut resistant fabric Cut-Tex® PRO and manufactured in the E.U. They are also fully CE marked (Cat II PPE). This means CutPRO® complies with all European laws, rules and directives, which clearly state all PPE must be CE certified and labelled.
