## Cericom GmbH

Description: Cericom GmbH is a medium-sized company in Minden, Westphalia. It has been part of the LiSEC Group since 2020.

Since 2002, innovative technology for glass processing has been produced at the Minden site for worldwide use. We offer our customers a full range of services in the system areas of laser marking, laser matting, laser decoating, laser drilling and laser cutting up to prototype machine construction.

When developing new ground breaking solutions in glass processing and finishing with laser technology, cericom GmbH operates with a one-stop-shop solution: from our own laser research department, software development and special design, from in-house production to worldwide service and sales, cericom consistently follows the principle of "everything from a single source".

Location: Germany

Sectors: Glass processing

Activities: Equipment / Machinery supplier
