Glass Open Book

Vaider Group (Steklarna Hrastnik)

PURITY. PASSION. HEART. Full-service solution. Collection & bespoke bottles (design, production, decoration). Sustainable glass solutions.

Follow the company

Description:

With more than 160 years of tradition Steklarna Hrastnik, a daughter company of The Vaider Group is a renowned global partner in developing and manufacturing world-class engineered glass products. Famous for creating products from one of the most transparent glasses in the world.

We create a wide array of products for the spirit, wine and cosmetics industry. All our products are distinguished by a perfect combination of style and quality. From traditional designs to innovative, award-winning designer solutions, our products have received recognition. Made of top-quality glass, all our products are acclaimed for their perfect crystal shine and are completely free of heavy metals.

Made of top-quality glass, all our products are acclaimed for their perfect crystal shine and are completely free of heavy metals. Not only are the volumes tailored to customers' needs, but so are the products themselves.

All items can be customized through comprehensive decoration techniques which result in unique and stunning results that speak to our customer's vision. Steklarna Hrastnik is a one-stop shop that offers a full range of services, from idea to development and from design to delivery, all while focusing on flexible and excellent service, quick arrival to the market and tailor-made solutions.
