Follow the company

Description:

He Rui Optics Co., Ltd. is located in Changchun City, Jilin Province, which is known as "China Optical Valley".

He Rui Optics customizes various optical components include spherical lens, optical prism, optical window, optical filter, cylindrical lens, aspherical lens, optical mirror, laser mirror, optical filters and related products of high precision processing.

Widely used in military, scientific research, health, biological engineering, astronomical observation and used in laser, electronics, semiconductors, telecommunications, thermal imaging and other aspects.

We have been in line with the "customer first, quality first, service first" purpose, strict quality, control processing and delivery time, optimize service. To meet the needs of customers, to achieve customer satisfaction, win the trust of customers.

PRODUCTS
Lenses
Spherical Singlet Lenses
Doublet Lenses
Triplet Lenses
Half Balls
Balls
Domes
Rod Lenses
Cylindrical Lenses
Infrared Lenses
Lens Assembly
Aspherical Lenses
Fresnel Lenses

Prisms
Right Angle Prisms
Roof Prisms
Penta Prisms
Dove Prisms
Wedge Prisms
Retroreflectors
Klag Prisms
Light Pipes/Blocks
Beamsplitters
Rhomboid Prisms
Porro Prisms
Equilateral Prisms

Windows
H-K9L(N-BK7) Windows
Fused Silica Windows
Sapphire Windows
Borosilicate 3.3 Windows

Glass Open Book

Step Glass
Low Iron Glass
Soda Lime Glass
Gorilla Glass
Corning Eagle XG

Mirrors
Dielectric HR Mirrors
Metallic Mirrors
Hot&Cold Mirrors

Filters
Bandpass Filters
Color Glass Filters
Neutral Filters
Shortpass Filters
Longpass Filters
IR Filters
Notch Filters

Infrared Optics
ZnS(Zinc Sulphide)
ZnSe(Zinc Selenide)
Silicon
Germanium
LiF(Lithium Fluoride)
MgF2(Magnesium Fluoride)
BaF2 (Barium Fluoride)
CaF2(Calcium Fluoride)

Coatings
AR Coating
BBAR Coating
DLC Coating
Hydrophobic Coating
AF/AS Coating
CTO Coating

Crystals
Laser Crystals
NLO Crystals
Bonding Crystals
Passive Q-switch Crystals

Location:	China
Sectors:	Special glass, Glass processing
Activities:	Glass processor
